

SW200 UPPER ARM TYPE VERTICAL HINGED DOORS

UPPER ARM SIDE
HUNG DOOR

SPECIFICATION PARAMETER

Model of door-motor	SW-200	
Form of door-motor	outer-hanging	internal-pulling
Weight of door leaf	maximum:250KG	
Width of door leaf	DW=600-1500MM	
Motor	DC24V 120W DC brushless motor	
controller	controlled by the microcomputer processor	
rail power dissipation	120W	
Supply voltage	AC100V~240V	
Environment temperature	-20~+50°C	
noise volume	maximum:55db	
opening speed	maximum:0.2-0.5 seconds/90°	
opening time	can be adjusted to be 0-20 seconds	
transmission condition	outer-pushing connecting rod group	internal-pulling sliding groove
opening range	Automatically set factory of /90°	
PFC power factor	0.95 (AC100Vwhen at full load)	
pushing strength to open by hands	2.5kg
